

GBC Spotlight

Student Enrichment and Success Initiatives at GBC

Students studying in the Leonard Center for Student Life

Institutional Research and Effectiveness has compiled information on student enrichment and success activities in a new website -- <http://www.gbcnv.edu/IR/ses.html> -- to help us all track how they fit together, how they help our students reach their goals, how they fit in with national campaigns to increase degrees by 2020 and with Nevada's commitment to those campaigns.

Here, you can find information on [Complete College America](#), the [National Governor's Association Complete to Compete](#), and NSHE's [Don't Wait Graduate! Campaign](#) as well as many projects at GBC.

Skills USA Spring 2011

"GBC has always focused on student success and facilitating student progress toward their educational goals, whether that be a certificate or degree, enhanced job skills, or personal enrichment. These state and national initiatives provide additional focus on preparing an educated workforce for the benefit of communities, the State of Nevada, and beyond," stated President Lynn Mahlberg.
