Welcome to All who come this way.

This is the Wells, Nevada Band Colony of Western Shoshone web site. We are located in the northeastern sector of Newe Sogobia - The Shoshone Nation.

On the following pages our visitors will find tribal information from administrative, health, education, housing, law enforcement and news. Of course, this is only the surface of what we offer here.

There are many links on the Medicine Voices page that cover a large variety of things. We are sure you will find something there that will be of good use.

You will notice in the bottom of the right column a link for a Chat Room. This Chat was designed and placed here (this page only) so that we could schedule group chat sessions from time to time for everyone all over the country. Also, you can use it to schedule personal chats with your family or friends whenever you like. It costs nothing and you don't need any special passwords or memberships to use it.

We have a guestbook link, just below the chat, that we request all of our visitors to use when they stop by our

way. It would be nice to know a little about our visitors and what they think/feel about our site. Go ahead, it doesn't hurt and only takes a moment.

In continuing, there are many issues concerning Native American Indians today that appear to be overwhelming. Our hope and desire is not only to offer information, links and resources to help expand our understanding of these things but to also offer our voices in the great scheme of things to unify all Native Americans under one banner. Go Here: ["Announcements"](#)

Some of the items contained within our pages may be very intense, even alarming, none-the-less, we need to help eachother understand these things. This is the only way we can arrive at the right and correct decisions we must make in our Councils, Gatherings and through our Medicine Ways that will be of great benefit to all of us. The decisions we make today does make a difference tomorrow.

If you cannot hear the voices of the ancient ones, your ancestors; if you cannot feel to know your own heart; to feel the earth beneath your feet; to take a breath of fresh clean air, a drink of clean, clear water; then what have you done?

Enter the lodges and sweat this poison out. Talk to the Elders. Teach your children. There is absolutely nothing to be ashamed of. We are a proud People. Stand in the light of your grandfathers and let them smile on their children.

The time has come for us to dance as one Nation - Unified as one Nation.

It is time for those who have taken us lightly to hear and feel our Thunder.

The time has come to light the council pipes.
