C. H. Aubury  
Pena, Nev.

Dear Sir: - Some four years ago I met you in Smokey Valley at my place and spoke to you about my homestead alluvium. You can recall at that time I told you about my place. It had good soil, but no water for it to be had. Well since then up to present I have been unable to make a crop on the place, have tried to put in crop but it all failed on account of no water, and I have concluded to abandon the place, but I still would like to retain my homestead right. I would like to

learn whether I can sell  
my buildings and barbed  
wire fence, and I've also  
dug two wells one is 20  
feet deep and the other 30 feet.

I believe that I can get  
few dollars out of my build-  
ings etc. and try some <sup>other</sup> place  
where I can make a living  
or a good home.

I have enclosed here with  
my notice of allowance  
which may aid you in  
some way in regards to my  
place. Which you may  
kindly return with a reply.

Respectfully

Sam B. Covert.

P.S. Would like to stay on the  
place until I can sell my  
buildings etc. They are not  
portable, made of log.
