The Program

GBC offers a wide variety of EMS classes including:

EMS 108 Emergency Medical Technician— Basic
A 120-hour course designed for individuals with an ambulance service, fire department, police department, mining industry or other occupational fields where emergency medical calls are common. Upon successful completion of the course, students are eligible to take the National Registry of Emergency Medical Technicians (NREMT) examination for National certification as an EMT Basic.

EMS 112 Emergency Medical Technician — Intermediate
A 75-hour course for the EMT-B to advance to a higher level of care which includes basic skills, advanced airway management, IV therapy, advanced assessment and leadership skills. Upon successful completion of the course, students are eligible to take the National Registry of Emergency Medical Technicians (NREMT) examination for National certification as an EMT- Intermediate.

EMS 109 Emergency Medical Technician— Recertification
Offered every fall either on site or online. This is a 30-hour State-approved recertification class that meets the requirements for EMT-B and EMT-I recertification.

EMS 113 First Responder
A 40-hour State-approved course that emphasizes development of student skills in patient assessment and emergency care procedures. These include life threatening

emergencies, injuries, CPR, emergency childbirth, techniques for moving patients and much more. Successful completion of the course results in the state of Nevada Emergency Services certification. The First Responder certificate will allow students to volunteer with various fire and rescue agencies.

EMS 114 First Responder Recertification Course
A 16-hour State approved refresher course in emergency medical care for the First Responder.

EMS 110 Emergency Medical Services (EMS) Instructor Course
Prepares student to teach EMS courses. Emphasis is on the development of teaching emergency medical didactic theory and skills acquisition; preparation and use of a variety of media and materials; the purpose and methods of evaluation. Upon completion of the course, the student will instruct a minimum of 10 hours under the supervision of a certified EMS instructor to be eligible for a State of Nevada EMS instructor certification.

Prerequisites for registration:

Must be 18 years of age and provide proof of:

- current Healthcare provider or Professional Rescuer CPR card
- current health insurance coverage
- current immunizations (includes MMR, TD, TB skin test, and two of three Hepatitis B immunizations.

CPR and First Aid

GBC also offers a variety of American Heart Association (AHA) courses in CPR and First Aid. For example, Great Basin College offers CPR courses for Health Care Providers as well as Heart Saver CPR for the general public.
